

### **Congratulations on joining Nova SQ's Relevant by Design Workshop!**

There are a few basic things you need to have completed before the start of the workshop.

- ChatGPT account (free) – sign up and login
  
- LinkedIn access – if you already have an active account make sure you can still log in
  
- Laptop – please bring a charger, as we will be using the laptop often
  
- One real target account – please select an account you find either challenging or completely unable to penetrate into

Please have these ready and working before the first session, as we won't stop the session to fix logins and IT issues.
